

## Moose Choose Best Christmas Decorations

The Christmas decorations at the home of Hillard Tollins, Rt. 3, Box 738, Antioch, took first place in the Christmas home decorating contest conducted by the Antioch Moose Lodge.

Judges in the contest were Mr. and Mrs. Robert Hadley, Fox Lake; Mr. and Mrs. Richard H. Stroner, Antioch, and Mrs. Jerry Miller, Rt. 2, Box 510, Antioch.

The judges viewed all the entries last Thursday night, Dec. 23. Starting at 7 p.m. judges drove through Antioch and outlying areas until 1 a.m.

All homes within the village were automatically entered in the contest. Nine postcard entries were received from outside the village.

The Tollins home on Catalpa Ave. at Channel Lake, winner of the blue ribbon and a plate hand-painted by Leonard Kohl, was decorated with a giant Christmas tree covering one side of the house.

The tree was fashioned of evergreen boughs fastened to chicken wire. The tree decorations included lighted figures of choir boys, Santa Claus and manger.

The home of the Runmosses, owners of the Loon Lake Pet Shop, took second prize of a plate, and a red ribbon. The home, judges said, was beautifully lighted,

with a lighted manger scene set in a shell of plastic.

The home of Jim Sieben, Rt. 1, Box 562, Petite Lake, took third place. The decorations included huge candy canes and a Mr. and Mrs. Snow Man, all of paper mache. A gold dish was the prize.

The home of Donald C. Poulter, Rt. 5, Box 70, won an Honorable Mention. The decorations included lights lining the driveway and "Merry Christmas" in lights across the lawn.

Honorable Mention also went to Raymond Doll, 137 4th Avenue, Lake Marie.

All of the dishes given as prizes were donated by Pickard China.

## Facts About Antioch In Brochure

The Antioch Chamber of Commerce has completed the brochure containing pertinent facts about the village and the area around it.

The brochure is intended primarily for mailing to people and industries interested in Antioch as a possible home. Copies of the booklet will be distributed to members of the Board of Directors next week.

The brochure was compiled by John F. Romer. It contains several pictures of schools, the village hall, streets of Antioch, the fire department and rescue squad, etc.

In addition to the pictures, there is a history of Antioch from the time it was incorporated in 1892; facts about the fire department and rescue squad; a summary of the police department, the water supply, the sewer system, and the high school. The churches in Antioch are listed, as are the industries in Antioch.

The back page contains a map of the town, with streets listed alphabetically.

The brochure contains, in fact, just about all the information a prospective resident would be interested in.

## Increased Social Security Decreases Public Aid Rolls

Public Aid rolls in Illinois decreased by about 16,000 persons, according to Harold O. Swank, director of the Illinois Department of Public Aid. The October 1965 caseload was about 20,000 persons below that of October 1964.

The number of persons on Old Age Assistance and Disability Assistance dropped appreciably in October. Swank attributed this decrease to the receipt of Social Security payment increases retroactive to January 1965. Public assistance payments will be resumed in November and December to many of those removed in October because of the Social Security payment.

Public aid expenditures in October were \$24,184,050, compared to \$33,315,423 in September.

In Lake County, 2,498 persons received Public Aid in October, in the amount of \$166,053. Of this amount, \$55,265 went to Old Age Assistance; \$50,937 to Aid to Dependent Children; \$3,082 to Blind Assistance; \$12,080 to Disability Assistance, and \$37,138 to General Assistance.

## No Snow On New Year Eve

Sorry, folks. We could have warned you about the Christmas Eve storm but Doc Solar was so busy he didn't get time to stop in and give us the word.

However, we can tell you how New Year's Eve will be, weatherwise. "Just cold," says Doc Solar, "no snow."

In fact, Doc anticipates no bad storms during January. "Normal cold," he says, "with some sleet and ice—a nasty month, but not much snow."

The last week of January, you can look for warm, rainy weather. Some thunderstorms, maybe tornado warnings.

The NICC needn't worry about the thickness of the ice on the lake for the Jan. 9 derby, says Solar. Ditto the Fox Lake Festival on Ice. The ice will be thick enough to be safe.

February will be the snow month this year, the snowiest month of the year.

Incidentally, Doc reports seeing willow or elm mushrooms at the Walter Hills farm a week ago last Sunday. This is the latest he's ever seen them.

## Antioch Gets First Storm Of Season

The first storm of the winter season deposited about five inches of snow in the Antioch area Christmas Eve and early Christmas Day.

Friday, December 24, started off as a rainy day. The rain changed to sleet, then snow. A driving wind piled drifts on roads and added to the hazards of driving.

The wet snow and wind broke electric wires and caused power blackouts in many areas. Fourteen homes on the west side of Highland Ave. and the north side of First Ave. in Antioch were without lights from 9:45 p.m. Christmas Eve to 9 a.m. Christmas morning.

Residents at Trevor reported lights off for a short period on Christmas Eve.

Temperatures dropped to 6 degrees above zero Tuesday morning.

## Lake Villa VFW To Give Fund-Raising Dance

By Bernice Berniau

The VFW Post 4308, in Lake Villa is going to sponsor a dance on January 29 for the benefit of the Lake Villa Rescue Squad building fund. Services of a dance band are being donated.

\$10,818 has been raised since July, when volunteers started collecting money to build a place to house the rescue squad's equipment.

It is estimated that \$12,000 will be needed, not figuring land. The committee hopes to raise the needed amount at the January dance. \$215 has been received in memorials for Henning Johnson, late of Deep Lake.

\$1,187.91 was raised at a rummage sale in October and \$150 at a movie shown in November. Residents received a paper brick for a \$3 donation. Anyone who has not been contacted and who would like to make a contribution or memorial donation may call Al Smith at 356-8301.

Although Mort Engle of Engle and Sons Builders has offered a piece of property on Sarah Drive in Venetian Village, it hasn't been accepted, because it is too far from town. They hope to obtain a piece of property in the vicinity of the Lake Villa Grade School on Rte. 132 or 83. In that location, it would be quicker for the men to get there.

## Lake County Sales Of Savings Bonds

Lake County residents purchased a total of \$317,052 in series E and H United States savings bonds in November, according to Philip L. Speld, Lake Forest, Ill., general chairman of the savings bonds committee.

Sales in the state of Illinois were \$25,652,440, according to Arnold J. Rauen, state director of the Treasury's Savings Bond Division. This is 3.06% less than sales for last November, and accounts for 7.5% of national sales which were \$337,817,000. Illinois purchases for the first 11 months of this year reached 86.9% of the annual quota which is \$358,100,000.

# Clarence Kufalk Appointed As Acting Postmaster

Clarence Kufalk

Clarence Kufalk, brother of the present postmaster, Roy Kufalk, has been appointed acting postmaster of Antioch as Roy retires.

Postal officials are in Antioch today (Thursday) to make the transfer of office.

The appointment is temporary, under postal laws, Roy pointed out to us, until such time as Civil Service examinations for the office are given. The examination can be given at any time set by officials. Officials can also appoint another acting postmaster at any time.

Roy first announced his retirement as of Dec. 1, but was forced to delay his retirement because appointment of the new postmaster did not come through. As a result, he had to continue in his position through the Christmas rush.

The Christmas mail was heavy this year, Roy said, but the postoffice was never in difficulty. People mailed earlier than usual, he said, and good weather helped because there were no transportation difficulties. The Antioch mail was always current, as a result, and the Christmas mail was cleaned up earlier than usual.

On Tuesday, with only two days left to work, Roy was out delivering some parcels by car after the post office truck broke down. "I've used my car a good many times during the years, to go pick up mailmen who were stuck after a heavy snow and such," Roy said. Friday's my first day of retirement—we can start the new year off with a bang. Actually, my wife and I will play cards New Year's Eve—we belong to a card club. In a little while we intend to go to Florida.

Roy has been Antioch's postmaster for 25 years and has worked at the Antioch post office 40 years.

Clarence Kufalk, who takes over as postmaster Friday morning, was formerly Assistant Postmaster. He has worked at the post office 12 years.

Clarence was born in Burlington, but spent most of his life in Antioch. He graduated from Antioch Township High School in 1929. He lives at 620 Parkway in Antioch with his wife, Barbara. They have a married son, Richard, and a daughter, Nancy.

"As Acting Postmaster, I'll try to give the best possible service to the public," Clarence said. He commented that the Christmas rush had gone smoothly this year — "I think everything went the best I've ever seen it. Everything that came in was gotten right out."

Clarence intends to take the Civil Service examination for the permanent appointment as Postmaster when it is scheduled.

## Doctor Buys New Office

Dr. E. R. Abderholden has announced the purchase of the Medical Center at 543 Orchard St., Antioch, formerly occupied by Dr. A. N. Berke.

Dr. Abderholden will move into his new offices on Tuesday, Jan. 4. His office is at present located at 906 Main St.

Dr. Abderholden said that he did not buy Dr. Berke's practice, and does not have his medical records of patients. Dr. Berke is at present in Florida, recovering from surgery on his spine.

All of the present tenants will remain at the Medical Center, Abderholden said. He will use the whole first floor for his practice, giving him more room than he has at his present location.

Abderholden said most of the heavy medical equipment at the Medical Center was purchased with the building and will remain.

## NICC Ice Derby Jan. 9

Members of the Northern Illinois Conservation Club are hoping for a big freeze as plans for their annual Ice Fishing Derby on Sunday, January 9.

This is the first year the Club has had to worry about lack of ice on the lake. Severe storms on Derby Day haven't kept ice-fishing enthusiasts from flocking to the Derby by the hundreds.

The Derby, as usual, will be held on the south end of Channel Lake, three miles west of Antioch on Route 173. Derby hours are from 9 a.m. to 4 p.m.

Hot refreshments will be served on the ice all day long, and resorts and restaurants in the vicinity will be open all day to serve the public. Bait stores are loading up with live bait of all kinds to accommodate the horde of participants.

## Plan For Viet Na-Mom Airlift

Plans for an initial talent call for Lake County entertainers to participate in the Viet Na-Mom Airlift, will be discussed at a meeting of the morale project Executive Committee at 8 p.m. Tuesday, Jan. 4, at the Smith-Spaide VFW Post, S. Utica St., Waukegan, according to Henry Bogdala, general chairman of the group.

The Viet Na-Mom Airlift is a three pronged morale program which includes selection of a representative Lake County mother to visit servicemen fighting in Viet Nam, an entertainment troupe to accompany "Mom," and other entertainment groups to visit service hospitals in the Chicago area.

Leo Carvis, president of the Waukegan Federation of Musicians, and John Dromey, Mayor of North Chicago and a veteran of the entertainment field, who are serving as co-chairmen of the talent committee, will outline plans for the talent call and also announce plans for the opening of the entertainment program at the hospitals.

Confirmation of the appointment of Eugene Danneberg, president of the Mid-West National Bank of Lake Forest, as project treasurer, is also slated for the meeting, according to Bogdala.

"We have received commitments of participation from several veteran and fraternal organizations, but we want to emphasize again that all groups in Lake County are invited to participate and to send delegates to the January 4 meeting," Bogdala said.

## K. C.'s Bring Xmas Cheer To Needy

The Knights of Columbus of St. Peter's Church in Antioch brought Christmas cheer to 17 needy families in the Antioch and Lake Villa area with the delivery last Wednesday of baskets of food and Christmas trees.

Food for the baskets was purchased with money from the candy sale conducted by the K.C. The Christmas trees were donated by George Boyd, Jr., and William Seemann.

Names of the recipients were gathered from pastors of local churches, regardless of faith.

Grand Knight Vince Stonis delivered the baskets.

## Car Hits Train At Rock Lake Crossing

The driver of a car which collided with a Soo Line train at 3:30 p.m. Monday, Dec. 27, was taken to Kenosha Hospital by the Silver Lake Rescue Squad.

Roland Collins, P. O. Box 46, Trevor, driving a 1957 Ford, struck the engine of the train crossing on Rock Lake Road, east of 83. He told Kenosha County deputies that he didn't see the train approaching and did not hear a whistle. There are no warning lights at the crossing.

Collins suffered multiple cuts and bruises, but apparently was not seriously injured.

Engineer of the train was E. E. Scharfenburg, 351 15th St., Fond du Lac. No one on the train was injured.

Collins was driving east on Rock Lake Road when the accident occurred.

## Daughter of Local Woman Killed

Mrs. Carolyn Ruth Singleton and her daughter, Cindy, 2, were killed in a car accident last Wednesday, Dec. 22, in the state of Washington.

Mrs. Singleton was the daughter of Mrs. Stanley Anderson of Antioch and the late Dr. Anderson.

The Singletons lived in Puyallup, Wash. Mrs. Singleton is survived by her husband, Robert; a daughter, Linnea; her mother, Mrs. Dorothy Anderson; a brother, Stanley of Trevor, Wis., and a sister, Mrs. Ingrid Thiele of Antioch.

## Happy New Year

Happy New Year!

Bells will ring, horns will blow, and friends will exchange a warm handshake as the New Year bows in. 1965 is over, 1966 holds 365 brand new days to conjure with.

The past year brought a mixture of good and evil, as does every year. The war in Viet Nam was stepped up, and many young lives have been lost there. Perhaps 1966 will see the end of it, and we'll all be grateful.

The Illinois legislature passed a law making seat belts mandatory, just a small step in the direction of cutting down traffic fatalities. That war is sure to go on through 1966, with more lives lost than in Viet Nam.

The War on Poverty started, and already there are accusations of graft, outrageous wages paid to political hirelings, and that the poor are ignored in consultations on the program. How this war will progress through the new year is anybody's guess.

Medicare and Federal Aid to Education became reality in 1965. The results of these programs, for good or evil, will be felt more as time goes on.

Man made progress in the struggle to conquer outer space. Here at home, Civil Rights became the center of a storm, another problem that carries over into 1966.

The problems of 1965 carry over into 1966. If progress in solving the problems seems slow at times, at least men are still fighting for what they believe in, and trying to relieve the suffering of those unable to help themselves. The New Year brings us 365 more days to continue the battle.

## A New Look At Mental Retardation

"The lesson we have learned from all the recent breakthroughs in mental retardation is: 'Don't test them, train them! Don't hide them, hire them!' . . . The old psychology is passing and the old concept of a fixed IQ is passing with it. Today we know it's no longer wise or just to test people and pigeonhole them."

The quote is from Eunice Kennedy Shriver. Perhaps her words are a hopeful sign of a swing from the trend that has run too long—the passion for labelling people.

It appeared for a while that the primary purpose of the "experts" was to label each child, as to intelligence, and consign him to this status for the rest of his life.

Presumably, his ability, his mental capacity, would never change. We wonder how many children have been tagged with the label, "mentally retarded", and consigned to life in an institution because of some remediable physical fault, some imbalance of body chemistry.

The recently-uncovered case of a 12-year-old boy who had spent most of his life in such an institution points up the human fallibility of those who so decide the child's fate.

An astute attendant at the institution was the first to notice that the boy was apparently deaf, and to call the attention of a doctor to the possibility. Apparently a doctor who cared enough to investigate.

Tests showed the boy to be entirely without hearing. Further tests showed he was not retarded, but a genius. He was so smart that he had adapted to life in the institution by imitating the actions of the children around him. They were retarded, so he acted as though he were.

There may not be too many cases as extreme as this one, but one wonders how many children have never grown up to their full capabilities because some teacher or parent, early in life, tabbed them as "slow". Sight, hearing, an unpleasant situation at home, even a bad bout with a childhood illness, might lead to tagging a child as a "slow learner", even "retarded". And the tags seem to stick.

Causes and treatment of retardation are a foggy area, and it's only recently that much time or money has gone in to research on the subject. Some day, perhaps wonders will be wrought in this area, as they have been in physical illnesses.

In the meantime, it's good to hear someone say that labelling and pigeonholing people has ceased to be important.

## U. S. Army Needs Precision Workers

In recent years, the United States Army has had increasing needs for Precision Maintenance Specialists. Skilled young men will find there's excellent opportunity for rapid advancement and higher pay in this challenging field.

Precision Maintenance Specialists are also in demand in many areas in business and industry. Army schooling will provide you with excellent training and a firm foundation of useful experience. For detailed information on this exciting Career contact Sgt. Art Nelson, located at 620 1/2 Washington, Waukegan, or call ON 2-5200.

## Courthouse Notebook

BY LOU DURKIN

With the old year 1965 having its final fling and a bright New Year at the threshold, this is a time for recalling things past or forecasting things to come.

Since the year ahead has more to offer in the way of predictions than 1965 offers in the way of recollection we will stick to prognosticating and leave the reminiscing to those who yearn for the "good old days" even though they are only 12 months past.

The days of the New Year will bring a rash of statements from candidates for county, state, and Congressional office even though the primary elections will be two months later than in years past.

Some candidates will want to get the jump on possible opponents while others will use the early announcement as a means of heading off speculation of candidate slating at the county level.

Despite the early announcements there will be talk of slating action by the Lake County Republican Central Committee right up to Election Day when it will be decided time does not permit action "this year."

The first New Year's resolution will scarcely be broken before dissident Republicans will start talking about a replacement for Robert J. Milton as Central Committee chairman and when the votes are counted in the county convention it will have been decided that "this is absolutely the last term for him."

The coming year will not see the breaking of the third term tradition for county board chairman. After all, the two term tradition is far from ivy-covered.

Since Board Chairman Kenneth Henke will probably go along with this star gazing, he will be a candidate for the Illinois House of Representatives, competing for votes on the north district's Republican ballot with State Rep. John Conolly, W. J. Murphy, Nick Keller, and Norman Geary, Avon Supervisor . . . and possibly others.

Present board leadership will retain enough strength to elect a new chairman, probably L. E. (Red) Murrie, of Antioch, but by year's end the "outs" will have gained enough strength to make each board proposal a donnybrook.

Work will be started on an auxiliary county building in Libertyville, but there will be a delay on improvements to the Lake County Home as the board bosses make a show of "watching the taxpayers' dollars."

Robert G. Jasper will take the Supervisor of Assessments test, pass it with flying colors, and discover that there are many ways other than by tests to find a county employee ineligible for continued service.

The first name to be mentioned as a possible successor will be John Babcock, who now works in the office, and all because he happens to come from the same township as Cuba Township Supervisor Joseph P. Welch.

Casual observers of the county political scene will become confused during the campaign for the Republican nomination for Sheriff and will swear there is a contest for County Coroner because supporters of Coroner Orville Clavey and his predecessor Robert (Mickey) Babcock will be vocal marchers in opposing camps . . . And by the Fourth of July there will be speculation that Babcock will seek to regain the office he lost in a surprise race in 1964.

The sheriff's race, which at one point threatened a surplus of candidates, will have narrowed to a three way race by the final day of filing and Norris Froelich, Harold Scheskie, and Stanley Christian will be drawing

straws to determine position on the ballot.

The Lake County Forest Preserve District will institute its first condemnation suit to secure title to a site for a new district and the Lake County Health Department will decide it is the better part of valor to accept quarters in the new county administration building rather than engage in a long battle over its budget.

And one of the most bitter battles of the year will develop when it comes time to prepare the commemorative plaque for the new building and the supervisors will have to decide if August Cepen or Taisto Aho should be honored on the tablet as Chairman, Lake County Building Commission.

## ALONG THE WAY with Annie Mae

After baking for two solid weeks, decorating the house, and stuffing a 28 pound turkey, I was snowed in and spent all Christmas Day without company and it was great. . . . Little John Heick, four years old couldn't wait for daddy (our Police Chief) to help him cut down a Christmas tree so he cut down his own, a two foot pine, which the Heicks decorated and used, which goes to prove "beauty is in the eyes of the beholder." . . . Dick and Alexa Haak and

## Music Center Stages Children's Movies

There will be a touch of the holiday season when the Children's film series sponsored by the Women's Auxiliary of The Music Center of Lake County, Inc., is resumed Dec. 29.

The award winning movie, Christmas Cracker, will be one of three outstanding attractions to be shown at 10:30 a.m. and again at 1:00 and 3:00 p.m. in the Little Theatre of Waukegan Township high school's West Campus.

Other movies to be shown will be Ballerina and Golden Fish. Ballerina follows the career, on and off the stage, of Margaret Mercier. She rose to be prima ballerina of the Les Grands Ballets Canadiens, Montreal.

Christmas Cracker is winner of the Golden Gate award for the best animation at the San Francisco film festival last year.

Funds from the film series go toward maintaining the not-for-profit Music Center, a fine arts center headquartered in Bowen Park.

Chosen by a group of experts, the entertaining and educational movies are aimed at children between the ages of 4 to 12 inclusive.

## Captain Davey Jones Buys Wing 'N Fin

The Wing 'N Fin at Volo takes on a seafaring look with the advent of the new owner, Captain Davey Jones (honest).

Captain Jones says that's really his name. He was a seafaring man for 27 years, and served as captain on seagoing vessels. He's been in seaports all over the world, he says.

Captain Jones was formerly owner of the Powderhorn at Crystal Lake, which he operated for five years. He bought the Wing 'N Fin about a month ago, from Roy Thompson.

The Wing 'N Fin is 600 acres with a 100 acre lake. It's a private hunting club, but the Powderhorn Restaurant and Bar is open to the public.

The restaurant features a Captain's table, and serves wild game in addition to the regular menu. The lower floor, where the restaurant is located, has been redecorated.

Specialist Five Kathryn B. Comstock receives First U. S. Army Certificate of Achievement from Colonel Allen L. Bogardus, First U. S. Army Deputy Chief of Staff for Intelligence.

## SEAT BELTS

All 1961 or later model passenger cars must be equipped with front seat safety belts after March 1, 1966. The 74th General Assembly approved an act in June 1965 making installation of front seats mandatory. Since 1956 Illinois law has required that all new cars sold and registered in the state be equipped with seat belt anchors for the front seats.

The Department of Public Safety is required by the act to establish standards for the manufacture and installation of the safety devices. Operating 1961 and later model cars without front seat belts is a misdemeanor and punishable by a fine of not more than \$100 for the first offense.

middle of the street. . . . Maynard Schmieder, on vacation, has been lending a hand to the public works crew cleaning-up this snow. . . . our foreign exchange student Beatrix is enjoying the snow here and at the ski hills. . . . How about some cards for Edgar Simonsen and Helen Nelson, both at Victory Memorial Hospital.

See you next year, Annie Mae

## Trevor WAC Is Cited

Specialist Five Kathryn B. Comstock of Trevor, Wis., was awarded the First U. S. Army Certificate of Achievement at a Headquarters ceremony December 9th. The award was presented by Colonel Allan L. Bogardus, First U. S. Army Deputy Chief of Staff for Intelligence.

The 21-year-old member of the Women's Army Corps was cited for her work as an intelligence analyst in successive assignment in the Investigations and Counterintelligence Branches of the office of First Army's Deputy Chief of Staff for Intelligence.

The citation states that "she performed with efficiency and displayed the ability to adapt easily to changing conditions . . . and that she applied herself diligently in assisting in the control and handling of a variety of dossiers and other sensitive documents."

Specialist Comstock entered the Women's Army Corps in October 1963. Since completing basic and advanced training at the Women's Army Headquarters.

Specialist Comstock is the third member of her family to serve in the Army. One brother, Private First Class Robert Hehn, is stationed at Fort Riley, Kansas, while another brother, Specialist Four Michael Hehn is serving in Vietnam.

Specialist Comstock is a graduate of Antioch Community High School and is married to Staff Sergeant E-6 Max L. Comstock of Sioux City, Iowa. He is on duty with the Eighth U. S. Army headquarters in Korea.

## PARKING LIGHTS FOR PARKING ONLY

Parking lights are for parking—so says the Illinois State Law.

Your Lake County Safety Commission asks that you obey the law and use your main driving lights when you are moving, not your parking lights.

## NEW WRINKLE ON SKIN IRRITATIONS

There's always a fly in the ointment, it seems. According to two Louisiana physicians, Dr. Silas E. O'Quinn and E. Barrett Kennedy, those widely advertised wrinkle-proof, crease-resistant, waterproof fabrics may contain a booby trap. The doctors have found that some people develop a skin allergy from formaldehyde, one of the chemicals used to finish fabrics.

Sometimes the offending compound can be removed by repeated laundering. If, however, skin irritation persists, it is wise to get rid of the garment. (Remember, a gift to your favorite charity-run thrift shop is tax deductible, so it won't be a total loss.)

## Slay In School, Then Enlist

The Army Local Recruiter, Sgt. Art Nelson with offices at 620 1/2 Washington, Waukegan, in an interview with young people of school age asked if they had taken the time to consider the importance of staying in school.

The decision to stay in school, or drop out, is one that will affect your entire life. Sgt. Nelson said, "Now is the time to do some serious thinking about your present—and your future. Schooling is far more than preparation for a job; it is a vital important part of our lives which offers much in the way of satisfying experiences and invaluable associations."

After his graduation, Mr. James Gladue, who is now Private Gladue decided to get ahead by choosing before he enlisted. We asked the Sgt. what he meant by that. He further stated that if you qualify (by passing aptitude and physical exams), this is merely an option and it lets you choose your job or special schooling before you enlist. For example, in the General Technical Occupational Area, you can select from these career groups: Medical Care and Treatment, Medical Laboratory, Military Police, Physical Medicine, Food Service and Military Intelligence.

Of all the Armed Services, Sgt. Nelson said, the Army lets you choose from the widest variety of job training opportunities. He added to advance as a skilled person, you need training, and further school training is given at the many General Technical Schools, with courses varying from 12 weeks to 48 weeks. Students learn such subjects as Meteorological Observation, Social Work Procedures, Intelligence Analysis, and many other valuable skills. The schools are located throughout the United States.

Sgt. Nelson concluded, once you've got training and experience under your belt, it can pay off for the rest of your life. Thousands of young men and women have built successful civilian careers with "Know-how" they acquired in the Army.

For a free booklet on staying in school, or further information on the kind of training you can get through the Army Choose-it-yourself System and the guarantee before enlistment, see Sgt. Nelson.

## Strive To Keep Soil Report Useful

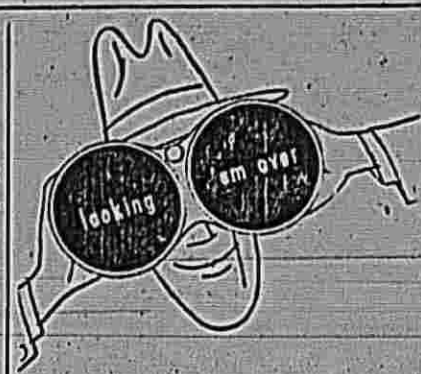

Orion Samuelson, WGN television personality, will be the guest speaker at the annual meeting of the Lake County Soil and Water Conservation District, to be held Feb. 12 at the Farm Bureau building in Grayslake. Other highlights of the meeting will be a noon luncheon and the election of three directors.

The Board agreed to furnish assistance on soil and water conservation problems to Leonard Florsheim of Lake Forest and Wilson J. Lacey of Mundelein.

Soils report writers from Nebraska and downstate Illinois consulted recently with Lake County officials to insure that the forthcoming Lake County Soils report will continue to be useful for many years. The meeting was held to acquaint the writers with the specific categories and methods of presentation needed now and later, when the use of land changes from agricultural to residential.

14 days after the first forged check and statement are available to him. Otherwise, the Stevens have within one year to notify the bank unless negligence on their part can be proved.

"The Law Serves You" is written to inform you and not to advise. No person should ever apply or interpret any law without consulting his attorney. Even a slight difference in the facts may change the result under the law.

By Pearl Kapell

Christmas is over, and now it's Happy New Year to you. Time to remember old friends and make a few good resolutions. Like resolving to do your Christmas shopping early next year.

This would be a good time to do some Christmas shopping, if you had the foresight to save a few pennies. Sales of all kinds coming up, and the stores won't be nearly as

## Winter Driving Calls For Extra Care

You can be a Go-Go-Go winter weather driver if you follow the advice of the experts, declares Harry H. Porter, Jr., manager of the Traffic Department of the National Safety Council.

"It is tragic that so many motorists are killed and injured each winter because they do not know or have forgotten, that safe driving techniques in winter are far more demanding than those needed for other seasons of the year," Porter said.

"The basic survival rules for safe winter driving have been developed by the National Safety Council's Committee on Winter Driving Hazards," Porter pointed out. "After years of study and actual testing, this group of experts has found that there are two principal hazards of winter driving not generally encountered at other times of the year — inadequate traction and reduced visibility."

"Motorists make more driving errors in winter simply because they fail to recognize the dangers inherent in these conditions," the safety specialist said. "A common blunder, for example, is following too closely. Few drivers realize that stopping distances on snow and ice are from three to twelve times greater than those on bare pavements."

"Whenever there's any question about how slippery a road may be, it makes sense to apply the brakes carefully, or to 'gun' the engine occasionally to see whether there is any tendency to skid. If there is, reduce your speed and drive accordingly," Porter warned.

For severe snow and ice conditions, Porter recommended the use of reinforced tire chains.

"The Committee's tests have shown that snow tires give half again as much pulling power in snow as regular tires, but for deep snow and glare ice conditions reinforced tire chains provide four to five times as much traction as regular tires. Every motorist driving in the snow-belt states should carry a set of chains in the trunk for use when needed," he declared.

To insure better visibility during winter storms, Porter recommended a thorough check-up of the heater-defroster system, headlights, tail lights, directional signals, windshield wipers and windshield washers.

"And even though all these items are functioning properly, your headlights and tail lights can't do an effective job if they are plastered with slush and road-muck. So don't forget to clean them frequently during foul weather."

Likewise, your windshield wipers can't wipe without streaking and smearing if the life has been baked out of the rubber by the sun," the traffic authority said.

"Motorists who follow these safety tips will come back alive," Porter concluded. "To ignore them is to court serious trouble."

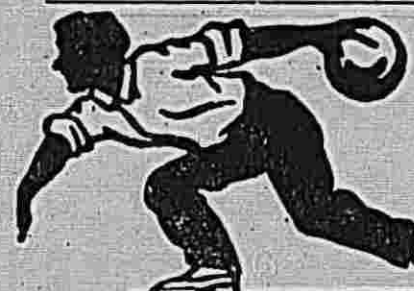

Untended water pipes often burst in the winter because water increases in volume as it changes to ice. The ratio is 11 cubic inches of water to 12 cubic inches of ice.

1965 PREP ALL-STARS

Nineteen Northwest Suburban Conference All-Stars were honored December 16 at an Awards Banquet in the Grand Ballroom of the Conrad Hilton Hotel. They are, front row, left to right: Mike Sterbenz, Antioch High School; Ken Janke, Tom Schweiss, Willis Klein, Don Holcomb, all from Grant High School; Sid William, Mike Doyle, Raleigh Galgan, and Ronald Deluer, all from Warren High School. Second row left to right: George Strickler, Assistant Sports Editor of The Chicago Tribune; Patrick Grady, William Sangbusch, Phil Bundgard, and Doug

Kilman, all from Grayslake High School; Brad Ipsen, Antioch High School; Fred Foreman, Warren High School; Tyrone Walls, Antioch High School; G. D. Wilson of the Coca-Cola Bottling Company of Chicago, host of the banquet. Third row left to right: Dave Subject, James Deichman, and Richard Varner, all from Grayslake High School. Each All-Star received a Golden Helmet Award from the Coca-Cola Bottler and a Certificate of Merit from The Tribune in recognition of his achievement in the 1965 football season.

George's Bar	20	25
Paty's Lounge	19	26
Sexauer Realty	18	27
Lake Villa Pharmacy	18	27

Reduced fares for military personnel traveling in uniform at their own expense have been extended indefinitely by the nation's railroads. Existing furlough rate reductions would have expired on December 31, 1965. The new railroad action will continue one-way and round trip coach fares for furloughed military personnel at savings of as much as 50 per. cent.

## Move NFL Title Game To Warmer Clime?

When the National Football League title is decided this Sunday in Green Bay the temperatures may be near freezing, there may be snow on the ground, and home town rooters will be bundled for the most rugged type of weather.

But will the Green Bay and Cleveland rooters, plus millions of television viewers in the U. S. and Canada, be getting a fair shake, especially if the game footing is bad? Sports writer Melvin Durslag says in TV Guide magazine this week (Jan. 1 issue) that the NFL championship game should be played in warmer climate where the chance for ideal weather conditions permit players to perform at their ultimate.

"By refusing to move the game to a warm area, the league not only defaces the biggest event but permits the element of luck to play a larger part than it should in the outcome," Durslag said.

"Bad weather occasionally occurs for football, but the game is basically designed for fast, dry footing. And if the NFL is going to arrange for something less, then the World Series may as well be played in mud; the Stanley Cup play-offs on ice that is melting and the National Basketball Association final on a frozen court."

Durslag contends the title game now is primarily a television show anyway. But if Durslag has his opinions, he also reports that NFL owners have their problems, especially keeping home town fans happy when they win the title and have limited seating facilities.

Art Rooney, Pittsburgh Steelers owner, was asked if he would move the title game to warmer climate if the Steelers won. "You must be kidding," Rooney said. "We haven't won a title in 32 years I've had the franchise in Pittsburgh — and you ask me if I'd move the game? Why, they'd chase me to the county line."

An editorial in the publication Michigan Medicine says: "Few, if any, new drugs or inventions have been commercially developed in countries which do not offer proper patent protection to the inventor. Of the new drugs introduced in the United States from 1941 to 1964, 369 came from the United States, 44 from Switzerland, 33 from Germany, and 28 from the United Kingdom. Equally significant is that 90 per cent of the 369 new drugs originating in the United States came from company laboratories."

Southern Illinois University poultry researchers have determined that 35 degrees seems best for egg storage.

## The Law Serves You

A Public Service of the ILLINOIS STATE BAR ASSOCIATION

### ILLINOIS LAW OF CHECKS

Carol Stevens wrote an \$8 check, payable to "Cash," and used it to pay for some groceries. When the bank returned the check with the monthly bank statement, Carol was shocked to find that someone had altered the \$8 check to \$80.

Her husband, John, immediately called the bank. A quick investigation showed that the bank had indeed cashed the check for \$80. Someone had altered the check before it was presented to the bank for payment.

Several days later, John discovered that another check returned by the bank was a complete forgery. An imposter had drawn a check for \$100 on John's bank, signing John's name to it. Checking with the bank, he learned that the full amount had been paid from his account.

### Who Takes the Loss?

The bank is the loser. Under Illinois law, the bank cannot charge the Stevens' for money it paid by reason of fraud.

In the case of the \$100 forgery, the law requires the bank to know the signatures of its own depositors, even against the most clever forgeries. Since John was the depositor, the bank wrongfully paid the check.

Carol is also protected under Illinois law. In the incident concerning her \$8 check, which was raised to \$80, the law provides that the bank must pay checks drawn on it according to the original "tenor" of the instrument—in other words, the amount for which the check was originally drawn.

### The Bank Protected

If the bank can show that Carol's negligence led to the alteration, she must stand the loss. Otherwise the bank can only charge the Stevens' account for \$8 — the amount of the check originally intended by the depositor.

However, the Stevens have a duty to examine their bank statements and cancelled checks within a reasonable time after they are returned to them. Failure to do so could prevent them from recovering their loss from the bank—if the bank proves that it suffered the loss due to the Stevens' failure to notify it within a reasonable time.

Where there is more than one forgery by the same wrongdoer, the customer must notify the bank within

crowded.

If you were wishing for a White Christmas, you certainly got your wish. The countryside looked like a painted Christmas card on Christmas morning, with thick snow weighting down every branch on the trees and bushes.

The year 1966 is almost upon us, before we've even had time to get over all the activities of the Christmas season. A tick of a second, and the past 365 days are history. And here we are, faced with 365 bright new days, each one 24 hours long. What will we do with them?

It would be a shame to waste any of those 365 days. And perhaps the best way to perk-up yourself—and every one of those days is by doing something you've never done before. No matter how comfortable your rut, ruts do limit whoever, whatever gets set in them. So try something new, even if it's only a new rut.

Have you always thought you'd like to try skiing?

Skating? Why not? You're in the middle of the best skating and skating country you could find.

Painting, playing a musical instrument, helping out at a children's home or a hospital one day a week. No time? Chances are, you spend hours every week in "busy work" that is really only a time-killer. You'll find time to do something you really want to do.

Try something new, or revive an old interest, and chances are you'll greet 1967 with delight and surprise that 1966 sped by so fast.

### NEW TROOPERS

Gov. Otto Kerner last week welcomed 20 new state troopers to state service. The group comprised the 35th class to graduate from the State Police Academy at the fairgrounds in Springfield.

New troopers serve a one-year probationary period before being certified in their positions by the State Police Merit Board.

# Topics for Today's Women

THURSDAY, DECEMBER 30, 1965 THE ANTIOCH NEWS 4

Marie Jasien

## Engaged

Mr. and Mrs. John Jasien, Lake Shore Drive, Bluff Lake, announce the engagement of their daughter, Marie, to Leonard Schneider, the son of Mr. and Mrs. George Schneider, Sheepshead Bay, Brooklyn.

The engagement was announced at an engagement party given by Mr. and Mrs. Schneider on December 26 at Cook's Coral Room in Brooklyn.

August 6 has been set as the date for the wedding.

Miss Jasien is a graduate of Antioch High School and Bradley University. She has taught at Grass Lake School for the last two years.

Mr. Schneider is employed at the First National City Bank in New York. The young couple plan to live in New York after their marriage.

## Where The Boys Are

Marine Private First Class Les R. Racine, son of Mr. and Mrs. K. C. Racine of 440 Linden Lane, Antioch, is serving with Marine Fighter Attack Squadron 323, a unit of the 1st Marine Aircraft Wing at the Marine Corps Air Station, Iwakuni, Japan.

## CHRISTIAN SCIENCE CHURCHES

A consideration of the nature of Deity will be the theme of this Sunday's service on "God" in all Christian churches throughout the world.

The sermon will consist of correlated readings from the Bible and from "Science and Health with Key to the Scriptures," by Mary Baker Eddy, the Discoverer and Founder of Christian Science. Included will be Moses' well known injunction from Deuteronomy: "Know therefore this day, and consider it in thine heart, that the Lord he is God in heaven above, and upon the earth beneath: there is none else." And this reference from Science and Health: "The power of God brings deliverance to the captive. No power can withstand divine Love."

## WOMEN'S SOCIETY OF CHRISTIAN SERVICE

The Women of the W.S.C.S. will hold their regular business meeting on Wednesday, Jan. 5, at 12:30 p.m. at Wesley Hall. The worship service will be by Mrs. Donald Cobb, assisted by Mrs. Robert Gaston.

The program, "Where the Women Are," will be presented by the members. The program is to acquaint women with their role in the church.

Hostesses for the day are the Alice Circle, with Mrs. W. C. Petty and Mrs. Robert Gaston as chairmen.

## HOME FOR THE HOLIDAYS

Mr. and Mrs. Howard Gaston, Orchard St., returned to Antioch from Florida about a week before Christmas. Their son, Pvt. Homer Gaston, is home on a sixteen-day furlough.

## Lindenhurst News

By Mrs. Bernice Bernau  
Editor 6-5649

### New Baby

David and Margaret Hallas, 1831 Maplewood Drive, are the parents of a little girl born Dec. 3 at Victory Memorial Hospital. Margaret Anne weighed 6 pounds 10 1/2 ounces at birth. Her big brother, David, Jr., will be three in February.

The grandparents are Mr. and Mrs. Joseph Hallas of Waukegan and Mr. and Mrs. Joseph Lahr of Wausau, Wis.

### Breaks Arm

Mrs. Betty Janega fell and broke her arm just above the wrist, while she was getting ready to sing with the choir at St. Mark Lutheran church recently.

### 4-H Club News

Mrs. Betty Kreutzer of Venetian Village is the new 4-H Club leader for the newly formed Lindenhurst and Lake Villa Spool and Spoons 4-H Club. At their first organization meeting recently Carol Boreen was elected president by the other 14 girls in the club. Also elected were: Vicki Cox, vice president; Janice Plint, secretary; Jody Borecki, treasurer; and Diane Stanley, reporter.

The girls voted to meet the third Thursday of every month at Mrs. Kreutzer's home, after school. They will learn cooking, sewing, knitting and baby sitting.

### New Residents

If you ring the door bell at 1908 E. Hazelwood Drive you will be welcomed by Robert or Beverly Jonas, or one of their three children. Janet who will be 8 years old on Jan. 17, Roberta who was 6 July 11, or Susan, who was just 3 on Nov. 3. Or maybe their nine week old Chihuahua, Butch, the children's Christmas present.

The Jonas' were married 9 years ago July 6. Bob is a petty officer 1st class at Great Lakes. He has 17 years service in the Navy.

They lived in Rhode Island for 8 years before moving here in September. Bob is originally from Minnesota and Beverly from Pennsylvania.

Stanley and Germaine Kreger are buying the Filwell home at 2205 E. Ridge-land and moved here Nov. 23 from North Chicago. Mr. Kreger says he has lived in Lake County all his life, and recently retired from the Great Lakes Naval Station where he was a maintenance man with the Fire Dept. Six of his 44 years of civil service work was in Washington, D.C., in a Naval gun factory.

### Births

Mr. and Mrs. Paul Morrison, Indian Point, are the parents of twins, a boy and a girl, born Christmas Eve. Mrs. Morrison and baby James are home from the hospital. Baby Paula remained at Victory Memorial.

### Hospital Notes

Mrs. Myrus Nelson, 1054 Victoria Ave., Antioch, is in Victory Memorial Hospital following a slight heart attack.

### Dangerous Lighter Offered For Sale

A potentially dangerous cigarette lighter is being offered for sale to the public, according to Dr. Franklin D. Yoder, director of the Illinois Department of Public Health. The product is an air-flame lighter that looks like a large lipstick or perfume vial. The lid comes off easily and the vapor ignites immediately on contact with air, with a flame that is almost invisible.

"The hazards of this lighter," Dr. Yoder said, "include the possibility of a child or adult opening it and being burned by the invisible flame or accidentally igniting clothing, furniture or drapes, which could lead to a full scale fire and serious or fatal burns."

The first alert on this lighter came from the Division of Accident Prevention, U. S. Public Health Service. The division reported that the lighter's fuel is methanol which, if ingested, may cause irritation of mucous membranes, headache, fatigue, unsteady gait, gastro-intestinal disturbances, including possible blindness.

The lighter has been advertised in Chicago for mail order sales from Le-Mir Products of Van Nuys, Calif.

Visitors from 40 states and 11 foreign nations toured the Southern Illinois University Museum during 1965.

## Dr. SIMS says... SAFEGUARD YOUR HEALTH

A PUBLIC SERVICE OF THE ILLINOIS STATE MEDICAL SOCIETY

### A GRAY, GRAY WORLD

Imagine a world without color in which everything is only a shade of gray.

That is the world of the totally color-blind person. Fortunately, total color-blindness (monochromatism) is rare. It is fact, however, that one of every 25 men are either partially or totally without true color perception. Women are more fortunate in that only about one in every 200 are so handicapped.

The mildest and most common form is called anomalous trichromatism and, in this case, a person sees some of the 430 hues of colors in the spectrum as abnormally dark.

More familiar to us are persons—technically known as dichromats—who are really "color confused." Other types of color blind persons include: protanopes who are red-blind; deuteranopes, green-blind; trianopes, who can't distinguish blue from green, recognize violet and see yellow as gray; tetanopes, who see the entire spectrum in red or green.

Color-blindness is usually hereditary, passed on from generation to generation of male offspring through genes of the mother.

But it can also be acquired—through infection, intoxication or aging of the optic nerve.

Because of the problems of the color-blind, the world has made innumerable adjustments to help them cope with their handicap.

Engineers, for example, universally design traffic lights with the red light above the green, so the color-blind can "read" them merely through their illumination.

But color-blindness can cause definite hardships. For example:

The Navy and Air Force reject men who are color blind. And serious color blindness can cause problems and their daughters, Nancy and Janene from Arlington Heights and Romaine's parents, Mr. and Mrs. J. Geddes and their son, John. To make the Christmas complete the Spiegler's son A/2c John, came home Dec. 22 from Turner Air Force Base in Albany, Ga. Most of the folks will be here until New Year's, so they will be having a big New Year's Eve party. The Spiegler's have a large basement so they have lots of room to sleep their house guests. Presents were overflowing under the Christmas tree.

### Socially Meeting

The Altar and Rosary Sodality of Prince of Peace Church will receive Holy Communion Sunday, Jan. 2, at the 8 a.m. Mass. All ladies of the parish are invited to receive with them.

On Wednesday evening, Jan. 5, they will hold their monthly meeting starting with Benediction at 7:30 p.m. A social hour will follow the business discussion.

### Birthday Party

Kathy Myslinski has four of her little friends in recently to celebrate her fifth birthday Dec. 12. Guests were Johnny Piefer, Christine Upham, Kathy Hussey and Harold Sokup, Jr.

### Family Reunion

If you think you had a house full Christmas, see if you can top this:

Ing Spiegler had her brother Ralph Rustad and his daughter, Cathy, from Detroit, Mich., her sister, Mrs. Gene (Ruth) Camenson of Lakeland, Fla., her sons, Billy, Ricky and his wife, Phyllis and their month old daughter, Dawn, and her youngest son, Kenneth, who left Wednesday for the Navy. Also, her sister, Miss Gudrun Rustad of Chicago; her niece, Miss Nancy Nielsen who is a freshman at Luther College in Decorah, Iowa; her mother, Mrs. Alma Rustad from Manitowish, Mich.; her sister, Mrs. Esther DallaValle and her husband Frank and their sons, John and Donald, from Highland Park (John was home on furlough from the Army); also her sister, Mrs. Ellen Harsh and her husband Gerald and their children, Linda and Jerry, who live next door to the Spiegler's.

Earl's brother, Alan Spiegler and his wife, Romaine,

lems when searching for a job with railroads, on ships or with airlines.

Jobs in paint and dye industries, position as telephone repairmen, or radio and television engineers (because electronic wiring is color-coded), sometimes in farming (selection of ripe fruit, for example) may be hard to get for the seriously-afflicted person.

Ordinarily, most "color-blind" persons adjust to their condition by learning to recognize common objects more by their relative brightness and shape than by the color itself.

There are cases, in fact, where persons who see colors darker or more vividly than normal are used to detect military or other camouflage invisible to normal vision.

Actually the color-blind stigma is more apt to cause marital arguments over who is "color-blind" than to cause any serious health problems.

So if it ever comes to a showdown between you and your wife—don't bet. Chances are she'd be right.

## Cub Pack 300 Meets, Gives Awards

Cub Scout Pack 300 met on December 17 at the Scout House. The opening flag ceremony was given by Den 1 under the direction of Mrs. Darlene Mason.

Everyone joined in caroling, followed by uniform inspection. Three new Cub Scouts were welcomed into the pack. They were Jimmy Morgan, John Teasling and Cy Werda.

A tentative date for the blue and gold dinner, February 13, was set.

The following awards were then presented: David Rush, bear badge; Ricky Klean, silver arrow; Billy Mason, year pin and Wolf badge; Randy Lundgren, Bobcat pin; George Davis, Wolf badge; Art Verkest, year pin, denner and Round-Up badge.

Round-Up badges were also earned by Ray Bazinski, Keith Belongia, Mike Gutow, ski and Gary Klean.

Den 5, under the direction

## Questions And Answers On Your Social Security

The Waukegan office of the Social Security administration is publicly answering many of the questions most frequently asked by people in an attempt to aid people to find out what benefits are due them.

Following is a list of questions frequently asked during the month of November by people living in the Lake-McHenry county area.

Q I am working full time and do not wish to take time off from work. Even though I am over 65, can't I sign up later?

A Individuals 65 or over by January 1, 1966 could lose Medicare benefits for at least two years if they do not sign up by March 31, 1966.

Q Do I have to be receiving monthly social security or railroad retirement checks in order to be eligible for Medicare benefits?

A No, if you are over 65 and not receiving either social security or railroad benefits, contact your local Social Security representative. Regardless if a person is working or not, he or she may still qualify for hospital and medical insurance.

Q I am a widow age 59. If I start drawing widow's benefits at age 60, will I receive the full amount?

A The full widow's benefit is payable only at age 62 or later. If you decide to draw benefits at age 60, there would be a reduction of approximately 13%. For example, if your husband would have qualified for a monthly benefit of \$100.60, you would receive \$83.00 at age 62 or \$72 at age 60.

Q My claim was turned

down a year ago. Would the recent changes in the program affect me?

A If you are 65, you may qualify for Medicare benefits. In addition, many people over 72 living in this area who were previously turned down may now qualify for a special benefit of \$35.00 per month.

Q Is it true that I may earn \$1,500.00 this year without having any of my Social Security benefits withheld?

A No, the \$1,200.00 limitation still applies for 1965; however, beginning with 1966, you may earn \$1,500.00 and still receive all your checks.

Q I am 60 years old and have been drawing Social Security for several years. On November 10, 1965, I suffered a heart attack. Am I now eligible for disability benefits?

A No, disability benefits are only paid to people disabled before age 65. After 65, regular retirement benefits are payable. Because you are presently drawing benefits, no additional payments could be made.

Q I am a retired worker, age 66. My wife receives a reduced benefit because she is only 64. Do we both qualify for Medicare benefits?

A Only you qualify. Your wife must wait until she is 65.

Q I am presently receiving benefits for my child who will be 18 next year. If he goes on to college, will his benefits continue?

A Yes, provided that he is taking a full time course. You should contact the Social Security office a month or two prior to his 18th birthday.

## Change Policies In Boy Scout Advancement

Dean Ray, chairman of the Northwest District advancement committee, announced several changes in Boy Scout advancement policy and procedure effective January 1, 1966.

According to Ray, the major changes which need re-statement are as follows: The Star and Life rank will no longer need letters of recommendation. Advancement scorecards must be at the Council office a minimum of seven days in advance of the District Board of Review date.

The North Shore Area Council will take the responsibility for securing letters of recommendation for Eagle. It is imperative that applications for Eagle Scout be forwarded to the Council as soon as possible after the Scout completes his requirements. Eagle candidates will be notified in writing of the date to appear before the Council Eagle Board of Review.

The Executive Board of the Council emphasized the need for all troops to conduct a review of each Scout who has not advanced during the past six months, with an eye to determining how the troop committee may assist the Scout. Troops should hold monthly boards of review. At least the chairman of the reviewing board of the troop must be certified by the district advancement chairman. Candidates for the Eagle Palm Award will also be reviewed by the troop board of review.

Ray said several other changes will be made in the Council Service Center to expedite the processing of Cub Scout and Boy Scout advancement records and the issuance of badges and awards.

William Richardson, Scout executive for the district announced the following change in Eagle Scout requirements. The National Executive Board of the Boy Scouts of America recently approved the addition of a new merit badge in "Conservation of Natural Resources," which will replace "Soil and Water Conservation" as a requirement for Eagle. The Soil and Water Conservation merit badge will not be deleted, but will remain a part of the total merit badge program. The new merit badge will cover a much broader field than has been embraced by the Soil and Water Conservation badge.

Richardson said, in order to avoid an injustice to Scouts or Explorers who may have started work on Soil

and Water Conservation or those who may have completed it in anticipation of using it as a required badge, a two year transitional period has been established. During this period (Dec. 1, 1965 - Dec. 1, 1967), the Soil and Water Conservation or the Conservation of Natural Resources badge may be used to fulfill the Eagle requirements. On December 1, 1967 the Conservation of Natural Resources merit badge will become mandatory for Eagle, and Soil and Water Conservation will join the non-required badges.

Richardson said an announcement of the change in the Eagle Scout requirements will be printed in the January issue of Scouting magazine and Boys' Life magazine. The Scouting magazine release will include the resource material to be used until a merit badge pamphlet is available.

## Census Shows Fewer Farms Produce More

Crop production on Illinois farms has increased roughly two-fifths in a little more than a decade, yet Illinois farm numbers declined from 203,000 in 1950 to 144,000 in 1964, according to an analysis if the assessor's 1964 Annual State Farm Census released by the Illinois Department of Agriculture.

The number, size and production of farms and livestock tabulations are shown by counties and districts. The increased output per farm unit and per man have come about through rapid changes in farm technology and increasing specialization. Large farm units have taken on greater importance, according to the report. One-third of the state's farms to-day account for about two-thirds of its production.

Cash receipts from farm marketing totaled more than \$2 billion in 1964. About 84 per cent of Illinois' land area, value at over \$10 billion, is used for farming. The Prairie State has six of the 10 leading corn counties in the nation, five of the 10 leading soybean counties and two of the 10 leading hog counties.

The nation's leading export state, Illinois ranks first in soybean production, providing one-fourth of the nation's supply. It annually ranks either first or second in corn production, third in the nation's total crop sales, fifth in production of wheat and third in popcorn. The state ranks second in the production of hogs, third in sales of all livestock and fourth in marketing grain-fed cattle. Of the 3.9 million persons in the state's total labor force, about four to five per cent is involved in agriculture.

Copies may be obtained from the Illinois Department of Agriculture, Division of Agricultural Statistics, P. O. Box 429, Springfield, Ill.

**TISSUES AID WINTER DRIVING**  
Wintry cold means steamed up windshields and fogged glasses. Unfortunately, it also means sneezes and sniffles. For a handy answer for all these problems, keep a box of junior-size tissues in the car. Hold it on the visor with two large rubber bands, so tissues are easily reached for any situation.

## Record Snows of Other Years

As you gaze glumly at the falling snow and brood about galoshes, snow shovels, and aching backs, remember that it could be worse.

Much worse. For instance, back in 1921, 76 inches of snow fell at Silver Lake, Colo., in just 24 hours. And at Tahoe, Calif., 108 inches of snow came down between January 12 and 15, 1952.

The record snowfall for a calendar month occurred at Tamarack, Calif., which got 390 inches during January, 1911, according to World Book Encyclopedia. In the same year a record depth of snow accumulated at Tamarack, where 454 inches covered the ground.

The all-time U. S. record for snowfall in one season was set from July, 1955, to June, 1956, when 1,000.3 inches of snow fell at the 5,500-foot level of Mount Rainier, Wash. Be glad you don't live there.

All these figures are records, and therefore unusual. But individual snowfalls of 30 inches are not unusual at all. In the hills southeast of Lake Erie and Lake Ontario, the average winter snowfall is more than 150 inches. Erie, Pa., on the southeast shore of Lake Erie, was buried by a 27-inch snowfall on Thanksgiving Day, 1956. Be glad you don't live there, either.

But no matter where you live, there are few spots in the United States which never get snow. For instance, snow fell as far south as Lakeland, Fla., near St. Petersburg, in January, 1958.

So, like it or not, snow is going to be with us for a while, and in quantity. People who like snow include small children, skiers, and the people who make galoshes and snow shovels.

## ICMRC Reports On Developments

The Illinois Council for Mentally Retarded Children reports on developments in the field of the mentally retarded.

Senior Citizens of Broward County, Florida, are being recruited to work with the mentally handicapped and emotionally disturbed children at Provident Hospital's Education and Research Center in Ft. Lauderdale.

William Ireland, Chief of Planning and Research for the Dept. of Children and Family Services, reported that 163 cases of child abuse were reported as of Nov. 12, following Illinois passage of the child abuse law. Ireland cited four outstanding features which contribute to the success and effectiveness of the Illinois program: the law requires reporting by members of the medical and healing arts professions; the law requires that reporting be made to the Dept. of Children and Family Services which is authorized to investigate, offer protective services and instigate punitive measures; the law provides for a central registry, and grants immunity to the reporter.

## Peace Corp Test On January 8

Antioch area residents interested in putting their skills to use in developing nations around the world are invited to take the Peace Corps placement test at 9 a.m. on Saturday, January 8, at 325 Washington St. in Waukegan.

The Peace Corps uses the placement test to determine how an applicant can best be utilized overseas. The test measures general aptitude and the ability to learn a language, not education or achievement. The placement test requires no preparation and is non-competitive—an applicant can neither pass nor fail.

The application form, not the placement test, is the most important factor in the selection of Volunteers. Persons interested in serving in the Peace Corps must fill out an application, if they have not already done so, and present it to the tester before taking the test. Applications may be obtained from local post offices or from the Peace Corps, Washington, D. C. 20525.

The placement test takes about an hour and a half. An optional achievement test for applicants who have studied French or Spanish requires another hour.

## MDTA Allots Funds For Ill. Projects

Several on-the-job training projects under the Manpower Development and Training Act in Illinois have been announced by Secretary of Labor W. Willard Wirtz and Secretary of Health, Education and Welfare John W. Gardner.

In Springfield, 20 unemployed or underemployed persons will be trained. Training will be in the occupation of Automobile mechanic. The course will last 53 weeks. A sum of \$78,265 will be allocated for the project.

Bloomington's program, also in automobile mechanics, will be conducted in the Bloomington Public School. Fifteen trainees will take part in the project, with \$57,066 allocated.

At Rosemont, Ill., twelve persons will take 12 weeks of training at the Sealy Mattress Co. as Power Sewing Machine operators. A total of \$2,661 has been approved for this course.

A project at Decatur, Ill., will provide 14 weeks of training for 45 persons in the occupation of Combination Welder. The project will cost \$37,183, of which \$19,530 represents training allowances to be paid to trainees, and \$17,653 training costs.

At Quincy, Ill., 30 persons will be trained as automobile mechanics at the Quincy Public School. Total cost of the project will be \$71,216.

Niles Township High School at Niles will conduct a 49 week program under the MDTA. Fifty persons will be trained at Licensed Practical Nurses, taking a 49 week course.

A project in Rock Falls will train 40 persons in refresher courses as Clerk Stenographers. During the 24 weeks of training, \$24,960 will be paid to trainees in allowances, and \$19,083 used for training costs.

A course at the Kankakee School will train 50 persons as Licensed Practical Nurses. The project will cost \$122,687.

## Winter Driving Scare You?

Winter driving scare you? If you admit it, you're probably a woman, one of 35 million women drivers in the country. But don't feel self-conscious over facing a bad-weather morning with a bit of apprehension. Men really do have good sense enough to be apprehensive, too—they just don't like to say so out loud.

So ignore all the bad jokes, and winterize your thoughts about driving right along with winterizing your car.

Now comes the first bleak day. Ice. Snow. Sleet. Bitter cold. Everything in the book. If you've had to leave the car parked outdoors, you're up against problem number one, getting into the thing. Keep on extra can of spray-deicer in the house for use on frozen locks.

Next with de-icer in hand clear away snow and ice from all the windows. Don't forget to clear the side view mirror, head and tail-lights. And brush away hood snow so it won't blow back on the windshield.

If you're parked on ice, a light foot on the gas is your best chance of making it. If the car just won't move forward, try reverse.

If the car still won't move, try "rocking." But keep a light foot. In second gear or drive, give the engine gas—ever so gently. Quickly shift into reverse. Gas—gently. Repeat the process. This method builds up momentum to carry the car off the spot you're stuck on.

If you do skid, don't panic, don't slam on the brakes. Steer in the direction of the skid and ride it out. Slamming on the brakes on an icy highway puts the car out of control.

Once there, if you have any choice of parking space, choose a level one with a minimum of ice and a maximum of maneuvering room.

Motorists should hold their own lanes on superhighways. The few seconds gained by weaving from one lane to another are not worth the risk involved.

## Ill. Foreign Trade Mission To Leave For Mediterranean

Members of the Illinois Farm Bureau's second foreign trade development mission will leave January 4 for the Mediterranean countries. Participants will fly from Chicago to Athens, Greece, to begin three weeks of intensive promotion efforts aimed at finding new buyers for Illinois produced products, particularly those from farms. Trade development activities, such as meetings with buyers and exhibitions of Illinois products, are scheduled for Greece, Lebanon, Israel, Italy, Spain and Portugal.

As a gesture of good will, trade development mission participants will present registered bull calves to a cooperative in Spain and to a vocational agriculture school in Greece. Calves will also be presented to organizations or institutions in Italy and Portugal, providing import barriers can be penetrated. Past experience of these countries in importing farm animals has been unfavorable, from an animal health standpoint.

Leading the Mediterranean trade development mission will be William J. Kuhfuss, president of the Illinois Agricultural Association. Kuhfuss led a similar mission to Europe in 1964.

## DON'T MIX GASOLINE AND BOOZE; IT'S DANGEROUS AND TASTES BAD

It may be OK to start the New Year with a BANG! but don't do it with your automobile.

The Lake County Safety Commission asks—If you drive, don't drink, if you drink, don't drive.

Take a cab, or make sure one member of your group stays sober.

Don't let your celebration turn into a funeral procession.

Microscopic plants may change the color of snow after it has fallen. Greenland and other places in the Arctic often have red and green snow on the ground.

## 1965 Insurance Rates May Be Adequate

Illinois auto insurance companies are hopeful that the rate relief granted to them by the Illinois Department of Insurance in 1965 will cover their losses for the year.

Thomas F. Reynolds, general manager of the Illinois Insurance Information Service, said the insurance community feels that rate relief came just in the nick of time. Direct Automobile claims—losses paid by all auto underwriters in Illinois in 1965 surpassed \$300 million, a new record high. This compares with claims-losses of \$206 million in 1964.

Motor vehicle registration in Illinois increased by more than 200,000 in 1965. Total Illinois registration is 4,437,516.

"Some of our Illinois companies at year end are expressing a very cautious optimism," Reynolds continued. "They hope that the new 1966 rates will be adequate to meet the 1966 levels of losses and expenses. Whether or not these rates will be adequate to meet 1966 losses and expenses, they do not know."

"The fact remains that motor accident frequency and accident severity continue upward in Illinois in an unwavering ascent, and these upward arcs are exerting pressure on even the new rates."

"The answer to this whole perplexing problem lies with an aroused public—a public which demands in Illinois tightened traffic enforcement for safety programs to prevent tragic and costly accidents, which demands acceptance of individual safety responsibility by all drivers, which demands an acceptance of ethical and fair attitudes by insurance claimants and by juries which consider personal injury and accident property damage cases," he concluded.

It takes a six-inch layer of moist snow or a 30-inch layer of dry snow to equal the water in a one-inch rainfall.

Snow covered road shoulders are deceptive, advises the Chicago Motor Club. Use extreme caution when it is necessary to pull off the highway to check your road map or for emergency stops.

THE ANTIOCH NEWS 5 THURSDAY, DECEMBER 30, 1965

Snow may hide a culvert, ditch, or other hazard. Best thing to do is to look for a little-used country road or driveway that is clear.

# PEACE

## TO YOU AND YOURS IN 1966

As the New Year begins with its promise of a brighter tomorrow, we join with all men everywhere in fervent prayer that peace may prevail throughout the world.

## DEATH NOTICES

### SOPHIA A. TRUAX

Mrs. Sophia A. Truax, 70 years old of Hwy 50, at Bristol, Wis., passed away on Thursday morning at 6:00 a.m. at her home, after a one year illness due to a heart ailment.

She was born June 17, 1895 at Cleveland, Ohio, and had resided in Chicago, Spring Grove and Elburn, Ill., before moving to Millburn in 1914. She married Charles A. Truax in Waukegan on August 2, 1922. They had farmed on Hwy 45 at Millburn until 1938 when they moved to Woodstock, Ill. They have operated a farm on Hwy. 50 at Bristol since 1951. Mrs. Truax was a member of Pleasant Prairie Methodist Church.

Survivors are her husband Charles A., one son, Glenn A. Truax, Bristol; one brother, Justus Decker, Holcomb, Wis., and two grandchildren.

Funeral services were held at 1:30 p.m. on Monday at the Strang Funeral Home in Antioch. Rev. Don Ott of the Pleasant Prairie Methodist Church officiated at the service. Interment was in Millburn Cemetery at Millburn, Ill.

### MARGARET H. STEINEL

Mrs. Margaret H. Steinel, 64 years old of 2711 North Sequoia, McHenry, Ill., and formerly of Drom Court, Antioch, passed away on Saturday, Dec. 25, in McHenry Hospital at 11:45 p.m. after a two day illness.

She was born August 1, 1901 at Bad-Elsger, Germany, and came to America in 1927 to reside in Chicago until moving to Antioch in 1941. She had resided in McHenry for the past several months. Margaret Weidhass married William C. Steinel on July 27, 1929 in Chicago, and he preceded her in death on Jan. 29, 1961. Mr. Steinel had formerly worked at Pickard China at Antioch.

Survivors are one daughter, Mrs. Richard (Lorraine) D. Huml, McHenry; three sisters, Mrs. Hugo (Helen) Voight, Chicago, and two sisters in Germany, as well as 2 grandchildren, Julie and Jeff Huml, McHenry.

Funeral services were held at 11 a.m. Tuesday in the Strang Funeral Home at Antioch. Pastor Harold I. Nelson of St. Mark Lutheran Church at Lindenhurst officiated at the service. Interment was in Liberty Cemetery north of Antioch.

### WESLEY L. (BUD) ADAMS

Mr. Wesley L. (Bud) Adams, 49 years old of 359 Cedarwood Lane, Antioch, passed away at 4:33 p.m. on Tuesday, Dec. 28, in Victory Memorial Hospital after a two month illness. He was born March 19, 1916 at Bagley, Iowa and entered the U. S. Navy on May 18, 1936 and retired from the service on April 1, 1954.

He captured the All Navy Middleweight Boxing championship in 1940 and defended the title until the last of 1942. He fought over 300 fights and exhibition bouts from 1934 through 1945, including 6 bouts against world champions, with a total of only 7 defeats. He had been active in baseball, football, basketball, and wrestling in all of which he was among the champions. He was inter-divisional light heavyweight champion for the USS Houston wrestling squad from 1936 to 1939, and from 1940 through 1941 he was light heavy champ on the USS Mississippi team.

In 1946, he received a letter of commendation from Admiral R. L. Connelly for his performance of duty as Chief Master-at-Arms and later as Chief Police Petty Officer attached to Headquarters Company, United States Naval Forces in Europe from September, 1944, to September, 1945.

Mr. Adams moved to Antioch 7 years ago and has been employed as a truck driver by Enterprise Ready-Mix. He holds membership in the Waukegan Teamsters Local No. 301 and is president of A.A. Club of Waukegan.

He is survived by his wife Georgia (one of the owners of Jacques and Georgia's Beauty Salon in Antioch), two sons, Harry J. "Skeeter" Kankakee; Thomas J., U. S. Army; one daughter, Donna Jean, Roselle, Ill.; one brother, Gerald Adams, Osage, Iowa; one sister, Mrs. Anthony (Lafrene) Sylvester, Newark, N. J., his mother,

## Millburn News

By Mrs. Frank Edwards  
Elliot 6-5795

Regular services at Millburn Congregational Church Sunday, Jan. 2: Church and Sunday School at 10 a.m.

The Devotional Study Group will meet at 9 a.m. Thursday, Jan. 13, at the home of Mrs. Bert Doolittle.

The ladies of the Aid will meet at the church Thursday, January 6, at 9 a.m. for a rug sewing and tearing of rags. A potluck dinner at noon. After the dinner a business meeting of the Aid and the installation of officers.

Mrs. Ann Crowe, Newark, N. J., and three grandchildren.

Funeral services will be held at 1:00 p.m. Friday at the Strang Funeral Home in Antioch. Chaplain J. A. Trewotha from Downey V.A. Hospital will officiate at the service. Interment will be in Liberty Cemetery north of Antioch. Friends may call at the funeral home after 1 p.m. Thursday. Friends desiring may make contributions to the Antioch Rescue Squad.

### DORA C. JENSEN

Miss Dora C. Jensen, 85 years old of Salem, Wis., passed away Friday, Dec. 24, at 1:00 p.m. after a lingering illness at Camp Lake, Wis.

She was born Oct. 23, 1880 at Andsager, Denmark, and came to America in 1893 to reside in Chicago until moving to Salem 6 years ago. She had attended the Salem Methodist Church. Miss Jensen retired as a ladies' maid, having worked for several families in Chicago in this capacity.

Survivors are three brothers, Clarence Jensen, Pasadena, Calif., Charles Jensen, Long Island, N. Y., Christ Jensen, Chicago, two sisters, Mrs. Christine Nielsen, Woodstock, and Mrs. Sena Nielsen of Salem, with whom she had made her home for several years.

Funeral services were held at 3:00 p.m. Monday at the Strang Funeral Home in Antioch. Rev. Donald Cobb of the Antioch Methodist Church officiated at the service. Interment was in Hillside Cemetery at Antioch.

## DEATH NOTICES

News has been received by relatives in Antioch of the death last Wednesday, Dec. 22, of William Dowell, 82, in Los Angeles, Calif.

Mr. Dowell was born at Channel Lake, and lived there until his marriage. He has lived in Los Angeles for about 50 years.

Mr. Dowell is survived by his wife, Loretta; three sons, William, George and John, and several grandchildren.

cers will be held. Mrs. Edwin Dennman, president; Mrs. Walter Fontaine, 1st vice president; Mrs. Garrett Trout 2nd vice; Mrs. Carl Anderson, secretary, and Mrs. Russell Doolittle, treasurer. Any of the ladies who are interested are welcome.

Mr. and Mrs. John Clem of Adelphi, Maryland, and Mr. and Mrs. Charles Taylor of Iowa City, Iowa, are spending the holidays with their parents, Mr. and Mrs. Gilbert Clem and Mr. and Mrs. William Paulsen.

Mrs. Elsa Lotz of Chicago is visiting the Mrs. George Butler and Mrs. Herbert Messner homes.

Mrs. Frank Hauser was a week-end guest at the home of Mr. and Mrs. Clarence Hauser of Paris Corners.

Mr. and Mrs. Charles Lucas were dinner guests of Mr. and Mrs. Royal Carr on Christmas Day.

Mrs. J. Kalut and Mrs. Frank Edwards were dinner guests of Mr. and Mrs. Robert Smith of Libertyville on Christmas Day.

Mr. and Mrs. William Paulsen had their children home for Christmas dinner. Mr. and Mrs. John Clem, Mr. and Mrs. Charles Taylor and Charles Paulsen of Knox College and Mary Sue and Paul at home.

Mr. and Mrs. Robert Erwin of Waukegan were callers at the home of Mrs. Frank Edwards Sunday afternoon.

Mr. and Mrs. Raymond Hauser and daughters of Menominee, Mich., were week-end guests at the home of Mrs. Harley Clark and Mrs. Frank Hauser.

Rev. and Mrs. L. H. Messersmith were dinner guests of Mr. and Mrs. Lloyd Miller on Christmas Day.

In spite of the bad weather Christmas Eve, a nice crowd attended the Candle Lighting service at the Millburn Church.

Mr. and Mrs. Garrett Trout spent Christmas Day at the home of Mrs. Romelle Pringle at Milwaukee.

Mr. and Mrs. Leslie Bonner and Mrs. Ellis Gott of Waukegan were dinner guests of Mrs. Lyman Bonner Christmas Day.

Mrs. Harley Clark and son Glen and their guests Mr. and Mrs. Ray Hauser and family were dinner guests of Mr. and Mrs. Walter Fontaine Christmas Day.

Mr. and Mrs. Vernon Stahnke and daughters of Roselle, Ill., spent Christmas night at the home of Mr. and Mrs. Leslie Bonner.

Keep headlights clean. By cleaning dirty lenses the amount of light often can be increased by as much as one-third. Clean headlights take on added significance in winter when driving visibility often is poor.

## Advocate Acquisition Of More Land For Recreation

A move to increase facilities for recreation and conservation in Illinois is planned by the Board of Directors of the Welfare Council of Metropolitan Chicago.

The program was presented to the Board jointly by the Council's committee on Public Policy and its Open Lands Project, which has been working in the field of recreation and conservation since 1963.

The Council will press for specific governmental action on the following points:

Comprehensive planning for recreational development and use of the Lake Michigan Shoreline.

A 500% increase in such recreational facilities as camp sites, picnic spaces, boat moorings and trail systems.

Acquisition of an additional 50,000 acres of recreation and conservation land in northeastern Illinois.

Immediate acquisition of nine specific tracts, which the Open Lands Project has been seeking to preserve and develop for recreational use.

Financing of this state program through bond issues, federal matching funds, general appropriations and user fees.

The Council pointed out that Illinois ranks 46th among the states in the ratio of state park land per 1,000 citizens.

Major provisions of the program for the Chicagoland area include:

Land should immediately be acquired throughout Chicagoland for recreation and conservation.

Waterways, water fronts

and lake fronts should be acquired and developed for recreation and conservation, in accord with a complete plan which includes adequate pollution control.

Adequate park components should be included in each urban renewal project, and should be accessible to persons living in and near the project.

Public schools and their playgrounds should be used

as indoor-outdoor recreation facilities when classes are not in session. The Council takes the position that schools, which are already integral parts of the neighborhood, could become natural centers for recreational, cultural and neighborhood activities involving the whole family. Because of their accessibility, such centers would meet the needs of a majority of metropolitan

THE ANTIOCH NEWS 6  
THURSDAY, DECEMBER 30, 1965

citizens, who must seek recreation after work and on weekends. The cost of using existing schools for these purposes would be far less than the cost of building, operating and maintaining duplicate facilities.

## firsttest with the moistest

Two good thoughts:  
Electric range ovens bake faster, because less pre-heating time is needed.  
Because only electric ovens are insulated on all 6 sides, cakes bake up richer and more moist.

### It's easier to be a good cook with electricity

**SURFACE COOKING:** Exact temperature settings provide precise and constant heat control. Large heating surfaces allow cooking at lower temperatures, require much less water. Result: More vitamins, flavor, color and texture. You can even prepare a delicate sauce without a double boiler. **OVEN COOKING:** Faster, because less preheating is needed. More moisture is retained, because only electric ovens are insulated on all 6 sides; meats are juicier, cakes richer. **COOLER:** Electricity cooks the food, not the cook. **CLEANER:** Self-cleaning units; flameless heat can't scorch utensils or soil kitchen walls. **SAFE:** No flame. **ECONOMICAL:** Far less food shrinkage; far lower cleaning expenses; no pilot light cost. See your dealer or call Commonwealth Edison Company.

## SUNNY SOUTHLAND OR WINTER WOES

### SAVING HERE MAKES THE DIFFERENCE

If you would like to escape from next winter's icy blasts, snow and slash, the time to start those plans is now...the place—here. Just a few dollars saved each week in an insured safe account here can send you south next winter. Profits add more for side trips and souvenirs. So start vacation saving now.

## LEGAL ORDINANCE RELATING TO TREES, PLANTS, AND SHRUBS

BE IT ORDAINED BY THE BOARD OF TRUSTEES OF THE VILLAGE OF ANTIOCH, ILLINOIS:

**SECTION 1. PERMIT TO PLANT TREES, PLANTS, AND SHRUBS.** No shade or ornamental tree, plant or shrub shall be planted in any public way or parkway of the Village until the Board of Trustees shall have first approved the kind or variety thereof, and designated the location therefor, and granted a permit for planting the same.

**SECTION 2. DUTY OF PROPERTY OWNER.** The owner of any lot or parcel of land in the Village upon which any tree may be standing adjacent to any sidewalk, public way or parkway, shall trim or cause to be trimmed to a clear height of ten (10') feet above the surface of said sidewalk, public way or parkway, all branches thereof which overhang such sidewalk, public way or parkway. If such tree remains untrimmed after the expiration of 15 days after notice to such owner or person in possession or control thereof, by the Village Clerk, such tree may be trimmed by the Street Department at the expense of the owner of the property.

**SECTION 3. INJURING OR TRIMMING.** No person shall, without the written permission of the Board of Trustees, remove, destroy, break, cut, deface, trim, or in

any way injure or interfere with any tree, plant or shrub that is growing in any public way or parkway of the Village.

**SECTION 4. ATTACHING SIGNS.** No person shall fasten or attach any rope, sign, handbill or other thing to any tree or shrub or to any protective device around any tree or shrub growing in any public way or parkway of the Village; nor shall any person allow any animal to injure or deface any such tree, plant or shrub in any manner whatsoever.

**SECTION 5. PENALTY.** Any person, firm or corporation violating any of the provisions of this Ordinance shall be fined not less than FIVE (\$5.00) DOLLARS nor more than FIVE HUNDRED (\$500.00) DOLLARS for each offense; and a separate offense shall be deemed committed on each day during or on which a violation occurs or continues.

**SECTION 6. REPEAL.** All Ordinances or parts of Ordinances in conflict herewith are hereby repealed.

The foregoing Ordinance was adopted by a vote as follows:

Ayes 6. Nays 0. Absent and not voting APPROVED:

RAYMOND P. TOFT MAYOR

Passed: December 21, 1965.

Approved: December 21, 1965.

Published: December 30, 1965.

## NI-Gas Reports Increase In Sales And Earnings In '65

Northern Illinois Gas Company reports everything up in 1965 except prices to customers.

Revenue and earnings of the company climbed; dividends to stockholders rose; and sales soared.

However, rates to customers were down by more than \$7 million.

For the 12-month period ended November 30, NI-Gas revenues were \$197,600,000. Earnings per share of common stock in the same period rose from \$2.08 to \$2.24.

As evidence of continued growth in 1965, NI-Gas President Marvin Chandler cited the bringing of gas service for the first time to 36 communities; the adding of almost 33,000 customers, and

the conversion of over 15,000 heating systems to natural gas. NI-Gas serves nearly 900,000 customers living in more than 400 communities in a 14,400 square mile area of northern Illinois.

## Central High Board Holds Meeting

The Board of Education of Central High School authorized the purchase of rug cleaning equipment from the Floor Machine Co., Inc., at the meeting of Nov. 14.

Floyd Holloway was appointed delegate to the annual State School Board Convention in Milwaukee on Jan. 19, 20 and 21. Dr. S. W. Waldo will be alternate delegate.

Dr. Waldo will attend the National School Board Convention in Minneapolis.

The board authorized the purchase of fire extinguishers from Salvano Bros.

It was reported that various staff members have attended meetings pertaining to the Elementary and Secondary School Act.

A report was reviewed from the State Board Vocational and Adult Education relative to a visit to the high school Vocational Agriculture Dept.

It was announced that the assistant principal will attend the National Association of Secondary School Principals' meeting in Cleveland during February.

The present status of the building program was discussed with representatives from the architect's office.

Board members saw a demonstration of various security systems adaptable to the high school, shown by representatives of Vericon Midwest Inc.

## Scout News

### CUB SCOUT PACK 192

The December pack meeting held Dec. 16 at the Scout House was opened with the Flag ceremony presented by Den 3.

New Bobcats welcomed into the pack were Glen Costoff, Phil Lindberg, Bill Petty and Dennis Thain.

Scouts receiving Wolf awards were Tommy Irving, a gold and silver arrow; Joe Renfro, a silver arrow, and Tom Robinson, a Wolf badge.

Greg Tossey and Tom Robinson received Bear badges.

Lion badges were earned by Dennis DeBoer, Greg Tossey, Frank Nevitt and Richard Miller. Mark Good earned a Lion badge and a gold arrow; Leonard Benning, a Lion badge and a gold arrow, and Gordon Silanoff, a silver arrow.

Bill Carter and Gordon Silanoff received year pins.

Bill Carter and Jerry Smouse earned Denner stripes. Jim Fischer and John Thain received Assistant Denner stripes.

Greg Dickson, Joe Renfro and John Melhorn will receive Round-Up Patches.

After the meeting a Christmas party was held. The party was planned by Mrs. Jean DeBoer, Mrs. Betty Fischer, and Mrs. Ellen Tossey. A tree was decorated by the Scouts with the ornaments they had made. Christmas songs were sung and Santa arrived with a package for each child.

The Cubs had made gifts for their parents. Christmas cookies, milk and coffee were served by the committee.

## NIU Plans Closed Circuit Television

Schools within a 20-mile radius of Northern Illinois University are backing an application for Federal funds to plan a limited range instructional television system.

About 25 school districts have approved contributions to finance an application for a planning grant for the facility.

NIU would act as the transmitting center for the system. The 2,500-megacycle band has been approved for this use by the Federal Communications Commission.

The FCC classifies such television as a closed circuit system, although it actually is broadcast. Federal funds would provide equipment to get on the air. Continuing operation would be the responsibility of participating schools.

One purpose behind the move to fixed service instructional television, Dr. Blanche Owens explained, is to permit greater flexibility of scheduling. Each participating school district probably would need some television tape recording equipment and a closed circuit system

# Highlights Of 1965 At Great Lakes

As another year draws to a close, it is customary to review all the events of the year. For the Great Lakes training Center, 1965 was another event-filled year, full of the happenings which gave it a certain uniqueness and set it apart from the other 54 years in the Center's history.

Centerites started the year in proper fashion when they were presented a "Presidential Citation for Recognition of Significant Economy or Efficiency Achievements" from President Johnson. The award was given to the Center for the \$100,000 that Center personnel saved the government from July 1, 1963 to Nov. 30, 1964. Some of the significant savings included: the Recruit Training Command which saved \$31,170 by renovating used lockers and repairing recruit leg-

gings; and the supply department which saved \$6,000 by revamping laundry services. Rear Admiral Howard A. Yeager, Commandant of the Ninth Naval District, opened a remodeled classroom building on January 4. Cost of the conversion was \$531,000, which is one-third of the cost for a new building.

The Great Lakes Credit Union was robbed of \$28,615.17 on Jan. 8. Five hours after the robbery occurred, the loss was made good by the Credit Union National Association.

A sudden drop in the temperature caused one of the worst winter ice storms in recent history on Jan. 22. Various areas on the Center were without electrical power for hours and it took clean-up crews many days to right nature's wrongs. The storm did \$295,000 in damage to Great Lakes.

Great Lakes celebrated "Red Cross Day" on March 5 by hosting 675 Red Cross volunteers for luncheon and recruit review. The workers were honored for their work with members of the armed forces.

The famous Naval Training Center Band and Blue-jacket Chorus participated in the ceremonies welcoming space heroes John Young and Virgil Grissom to Chicago on March 30.

Approximately 100 Centerites and eight pieces of heavy equipment were sent out to aid the tornado-stricken victims of Crystal Lake and Island Lake, following the Palm Sunday tornadoes. They went out daily for two and one half weeks to clean up the debris.

Chief musician Sid Zeramy retired from the Navy on June 1. During "Sid Zeramy Day" at Great Lakes on April 30, the Navy chief was honored at a luncheon hosted by Rear Admiral Yeager and was review official during recruit graduation.

During the graduation ceremonies, he was presented the Secretary of the Navy Commendation with Metal Pendant by Admiral Yeager.

Approximately 1,000 Explorer Scouts and leaders were the guests of the Recruit Training Command during the Region Seven Explorer Scout Conference on May 1 and 2. Among the VIP's who attended the confab was Miss Carolyn Migini, Miss Teenage America for 1965.

Nineteen thousand persons passed through the Center's gates on May 15 as Great Lakes made its 16th annual Armed Forces Day report to the American people. The open house provided the visitors with an insight into the nation's defense system and the Navy's current "power for peace."

On June 30, Great Lakes galley was cited by the 1965 May Memorial Awards Program as having the best galley ashore in the Navy. Approximately 1,200 galley were entered in the competition which began in April.

A new command, the Public Works Center — Great Lakes, was created on July 1. Captain William J. Byrnes was named as interim commanding officer until Captain Charles A. Reilly arrived to take over the position.

Receiving Recruit Training Command's first HELM Award on July 16 was First Class Aviation Ordnanceman Frank J. Englebracht. The award was presented by Army-Navy Times Publishing Company, is given to the most outstanding qualities of honesty, esprit de corps, leadership and military bearing in the training of young sailors.

The Center's new Centrex telephone system became effective on July 17. It is designed to improve the efficiency of the telephones throughout the complex.

On Aug. 14, Rear Admiral Howard A. Yeager and four Navy chiefs received seafaring citations from the Franciscan Friars at St. Francis Camp for Boys in Libertyville. The admiral and chiefs were honored for their work at the camp.

Lieutenant Francis X. O'Donnell, former Great Lakes Harbormaster, headed the Great Lakes search party on August 17 for victims of a United Air Lines jet crash in Lake Michigan which occurred the night before. During the days which followed the crash, the Center Boat House became a busy center of operations for airline and government officials, news-men and rescue workers. A warehouse at the Naval supply depot is still being used as a storage space for the wreckage.

Two thousand recruits were among the 50,000 persons who watched the St. Louis Cardinals defeat the

Chicago Bears 25-3 in the 20th annual Armed Forces Benefit Football Game, played Sept. 3 at Soldier's Field. Various drill units from Great Lakes entertained the spectators during the pregame and half time ceremonies.

The Center hosted the Honorable Robert H. Baldwin, Under Secretary of the Navy, during the Navy League's 43rd Navy Day observance on Oct. 27. During his tour of the Center, the secretary visited various facilities and presented two Purple Hearts.

Admiral David L. McDonald, Chief of Naval Opera-

tions, praised Recruit Training Command and its company commanders for their outstanding contributions to the fleet on Nov. 5.

Center personnel donated 9,638 bars of soap and more than \$2,000 to citizens of the embattled Republic of Vietnam as part of Project Soap. The drive began in November and was directed by Chaplain Paul H. Running, who recently reported to Great Lakes from Vietnam.

Throughout the world, sailors are known for their generosity when it comes to a worthwhile cause. During the past year, Great Lakes sailors proved that they were

no exception when they donated \$17,800 to the Red Cross; \$84,000 to Navy Relief and \$41,569 to the Lake County Community Chest.

Dignitaries who visited Great Lakes during the year included officers from foreign navies and other government officials. Among the guests were officials from Spain, Italy, Thailand, Australia, the Republic of China, Japan, Germany and Norway.

Several important dignitaries were honored at the weekly recruit graduations in 1965. They were Robert A. Uihlein, President of Schlitz Brewery; the Honorable Warren P. Knowles, Governor of

Wisconsin and Congressman Robert McClory of Illinois.

Great Lakes was also the site of a multi-million dollar construction program during the year. Construction began on barracks at Service School Command, Recruit Training Command and the naval hospital. Units of new Navy housing were open for occupancy in Forrestal Village and an underground cobalt treatment room was completed at the hospital. Approximately \$11,105,372 was spent on construction from Jan. 1 to Dec. 1 of 1965.
